Some of my Freelance experiences include:

Software Developer (Software Video Editing Tool): Creation of a Python application for a local Television capable of autonomously extracting data relating to Boulder competitions on the FASI website and translating them in an XML format usable in live television via their mixing software.

Prop Tech (TV Prop): Creation of a MIDI interface tool for use in the television program "Officine Lapola", allowing the program host to interface live with the audio mixing software.

Graphics Designer: Responsible for the creation of a logo, branding and web page structure for a start-up related to the labor market.

Language

I am Italian and my mother tongue is Italian, but I am fluent in English, for which I have a **B2 Certification**.

Personal Skills

Most of my work experiences (and often personal ones) have brought me into situations **where the ability to adapt to different environments and situations was crucial**.

I have been able to manage a team of 7 people, achieving winning results, and I have often found myself in at university in situations where I was asked to manage group projects for which, together with my colleagues, where we almost always obtained top marks.

Throughout my career, **the ability to relate to customers and the ability to speak in public**, clearly and in an entertaining way, have been fundamental.

I have a driving license.

Hobbies

Other than computers, which started my working career, **I am passionate about creative arts** such as music, video and graphics.

I can play the guitar, bass and keyboard, **which I use to produce original songs**, taking care of the production part using various DAWs.

I know how to move behind a video camera, after having directed amateur short films.

I am a Ferrari fan and I love Formula one.
