Freelancer

Responsible for the **design and creation of websites**, and developed a number of tools (**MIDI** and **Python** based) for a local television.

Figma

Arduino

Selenium

Photoshop

Python

PHP

SQL

JavaScript

Background and personal skills

Having worked in both corporate and freelance settings, I've developed several skills. Some of those include:

- Adapting to a fast paced environment, listening to feedback (from users and management) and implementing it in a continuous process.
- Team leadership with focus on dialogue and delivering successful results.
- Ability to relate to customers and speak in public, clearly and in an entertaining way.

Hobbies

I am passionate about creative arts such as music, videos and graphic design. I play the guitar, bass and keyboard to produce original songs.

I love Formula One but my favorite team never wins.
